

Dear FCC

This comment refers to the Sinclair Broadcasting Group's decision to air what amounts to an extended attack ad against John Kerry.

I strongly object to the use of the public airways by private corporations to further their political agenda.

I want to register my concern. Sinclair's decision to air this smear ad so close to election day seriously harms our media and our democracy. It amounts to an in-kind contribution to the Bush campaign and should be seen and labelled as such. It is a clear attempt to sway the election for Bush.

I ask that the FCC step in and take action against this move by Sinclair.

Thank you,

Dr. George Zikos
